Section 811 Project Rental Assistance Notice of Funding Opportunity Published

HUD's Office of Multifamily Housing Programs has published the [Fiscal Year 2026 Section 811 Supportive Housing for Persons with Disabilities Project Rental Assistance \(PRA\) Notice of Funding Opportunity \(NOFO\)](#) on May 11, 2026.

This NOFO makes \$158 million available to state housing and other eligible agencies to provide project-based rental assistance that expands affordable housing options for extremely low-income persons with disabilities. The funding supports housing with voluntary supportive services that help individuals live independently in their communities. These funds cover the difference between what extremely low-income tenants with disabilities can afford and the HUD-approved rent, ensuring long-term housing stability for eligible residents.

This funding opportunity increases integrated, community-based housing options for extremely low-income adults with disabilities and strengthens the state-level partnerships needed to support long-term success. The deadline to apply is **July 13, 2026**.
